Staff, Office of Logistics dated 21 December 1956

1. Attached is a list of library reference material which  
the Office of Logistics feels should be available at the Emergency

2. An asterisk indicates items which are currently in the  
Repository. These items should be transferred to the custody of  
the Library facility at the Relocation Center and maintained on  
a current basis with all supplements, revisions, rescissions or  
new issues provided.

3. It is requested that this Office be advised when transfer  
of the above material has been effected, in order that we may
